Please list all organization memberships and positions held.

N/A

Please list any relevant work and volunteer experience.

Co-Founder & Chief Business Officer - Asaak Senior Manager, Strategy & Operations - DoorDash Manager, Business Operations - LendingHome Investment Banking - William Blair

Why are you interested in serving on this Board, Commission or Committee?

I'd really like to be more involved in the community I call my home and the one I have grown to love over the past two years. As a resident of Emeryville, I have thoroughly enjoyed all aspects of the city and I would like to be a part of the committee that studies, analyzes and plans for its future. Being that this committee plans such long term, lasting changes for the community, I'd like to be a part of that. In addition, as a young member in the community, I believe I can bring a unique perspective while helping voice the opinions and concerns of the younger community members. I would thoroughly enjoy working on a united front to help shape the future of Emeryville, thereby creating a more prosperous, safe and healthy community for all. Thank you for your consideration!

PLANNING COMMISSION APPLICANTS ONLY

Please provide a short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.

As a resident on Christie Ave over the past two years, I have seen firsthand successful city planning. I have witnessed multiple commercial and housing structures erected before my eyes. As an example, it's been a joy to witness Christie Park bring new faces to our community. Although I may not understand the technical aspect of planning, I do think I have a unique perspective on what would help shape Emeryville. Being a part of the startup ecosystem, I think we can create more spaces where companies would want to work in/from. Potentially, this would help reduce the amount of commuters that leave Emeryville everyday, who would use Emery Go-Round rather than AC Transit or bike/walk instead of take BART. Considering the amount of housing options Emeryville has (not backing this by statistics, just sentiment), I think if we could cater to more commercial development, we could entice more people to move here and keep more current citizens in place. Aside from this, I do think it would be great if Emeryville were to have more shopping districts for small businesses. The current retail landscape is mostly consumed by larger, chain retailers. Lastly, I am hoping we could re-develop some of the Triangle district, while maintaining its charm. It would be great to revitalize some of the buildings there and still keep the local feel.
