

City of Emeryville

CALIFORNIA

MEMORANDUM

DATE: July 23, 2019
TO: Christine Daniel, City Manager
FROM: Andrew Clough, Public Works Director
SUBJECT: **Resolution Of The City Council Of The City Of Emeryville Approving The Scope Of Work For And Authorizing The City Engineer To Advertise For Public Bids The Construction Of The Annual Street Rehabilitation And Preventive Maintenance Project Fiscal Year 2019/2020, Project No. EPW 19-101 (CIP No. 17240005); Approving The Closure To Vehicles On Doyle Street From 61st Street To 62nd Street; CEQA Determination: Exempt Pursuant To 15301(c)**

RECOMMENDATION

Staff recommends that the City Council adopt the above entitled resolution.

BACKGROUND

Preventive maintenance of streets is required on a regular basis to extend the life of streets and to provide a quality riding surface for all modes of travel. The Capital Improvement Program adopted in June 2019 includes funding for the ongoing Annual Street Rehabilitation/Preventive Maintenance Program, CIP Project No. 17240005.

DISCUSSION

This project will consist of rehabilitation and preventive maintenance of City streets including pothole/base repairs, crack sealing, slurry seals, and pavement overlays. Rehabilitation and maintenance work on public streets need to be coordinated with other City projects, utility company excavations and private development projects on a cycle that sustains a high Pavement Condition Index (PCI) for all City streets.

The streets to be rehabilitated were identified as needing rehabilitation in the Pavement Management Program Budget report prepared as part of MTC's Technical Assistance Program P-TAP in Dec. 2017. This project includes work on the following streets:

- 37th Street (San Pablo Avenue – City Limits)
- 47th Street (Doyle Street – San Pablo Avenue)
- 53rd Street (Hollis Street – San Pablo Avenue)
- 59th Street (Horton Street – Peladeau Street)
- 62nd Street (Overland Avenue – Vallejo Street)
- 63rd Street (Overland Avenue – Vallejo Street)
- Doyle Street (Ocean Avenue – Powell Street)
- Halleck Street (Sherwin Avenue - City Limits)
- Horton Street (59th Street – 62nd Street)
- Overland Avenue (62nd Street – 65th Street)

- Peladeau Street (59th Street – Powell Street)
- Vallejo Street (Peabody Lane – Ocean Avenue)
- Yerba Buena Avenue (Adeline Street – City Limits)

The project will include improved striping configurations for the bicycle facilities on 53rd Street, 59th Street, 62nd Street, 63rd Street, Doyle Street, Halleck Street, Horton Street, and Overland Street. The new striping improvements will include, but are not limited to, re-configuration of bicycle lane transitions at intersections, buffered bicycle lanes, green thermoplastic bicycle facilities, and improved pavement markings for Class 2 and 3 bicycle facilities. Every crosswalk that is re-surfaced in the project areas will be re-striped as a continental crosswalk to improve pedestrian safety.

The project will include sidewalk and curb ramp improvements/repairs for areas that have been identified as being deficient for ADA accessibility.

The project improvements will also include the closure of vehicular traffic on Doyle Street between 61st and 62nd Street. Bollards, striping, and other features will be added to the small block segment to provide a safe route for bicycles and pedestrians only. This new condition was a recommended item from the ‘Bicycle and Pedestrian’ and ‘Parks and Recreation’ Advisory Committees. The item was also approved and recommended by the Public Works and Transportation Committee to go to City Council for final approval.

This project is determined to be exempt under categorical exemption Class 1 Existing Facilities, State CEQA Guidelines Section 15301(c) regarding operation, repair, maintenance of existing highways and streets.

FISCAL IMPACT

The Capital Improvement Program includes \$490,000 in Measure B and BB funding in Fiscal Year 2019/2020 for CIP Project No. 17240005 “Annual Street Rehabilitation/Preventive Maintenance Program.” Additionally, there are \$200,000 in SB 1 Road Maintenance Rehabilitation Account funds to be used in Fiscal Year 2019/2020. Additionally, there is available funding in CIP Project No. 15475023 “Sidewalk Improvement Program” for sidewalk repairs done as part of this project.

There is sufficient funding available to cover all estimated costs of the project. A final funding analysis will be included in the Staff Report when the final design plans and the Contractor’s contract comes to City Council for approval/authorization.

STAFF COMMUNICATION WITH THE PUBLIC

The Annual Street Rehabilitation and Preventive Maintenance Project has been discussed as a Public Works Update item at various Bicycle and Pedestrian Advisory and Joint Public Works and Transportation Committees in 2019.

CONCLUSION

Staff concludes that it is in the public's interest for City Council to adopt the above entitled resolution.

PREPARED BY: Ryan O'Connell, Senior Civil Engineer

APPROVED AND FORWARDED TO THE CITY COUNCIL OF THE CITY OF EMERYVILLE:

Christine Daniel, City Manager
