ADVISORY BODY EXPERIENCE / INFORMATION

Please list all past and current City of Emeryville advisory boards.*

N/A

Please list any past and current board, commission or committee memberships outside of Emeryville.*

N/A

Please list all organization memberships and positions held.*

As an undergraduate student at UC Berkeley, I held various positions within the university's first-ever social impact within business organization, called the Association for Socially Responsible Business. During my last year with the organization, I served as its External Vice President, spearheading and managing all of the organization's marketing and event efforts.

Please list any relevant work and volunteer experience.*

I grew up just outside of Portland, Oregon, and from age 12 to 18, I held many volunteer positions in the area. I served as a Teen Lead Volunteer at the Tigard Public Library, where I assisted in keeping the library a wonderful place for community members to learn and come together. I also volunteered at the Oregon Humane Society for 5 years, where I cared for a variety of shelter animals, led new volunteer orientations and assisted in keeping the humane society clean and inviting for prospective adopters.

Please provide a short (300 words or less) statement discussing your education, experience, qualifications and preparation for serving on the Emeryville City Council.*

I have always been very passionate about being involved in the town where I live. I grew up in a small suburb just outside of Portland, Oregon, a place where we all knew each other's names and we helped each other whenever and wherever we could. When I moved to Berkeley for my undergraduate studies in 2016, and evidently spent a lot of time in San Francisco, I felt I lost some of that deeper connection to my town and my neighbors. After living in San Francisco for the past year and a half, my partner and I finally decided to settle down and buy a home in Emeryville. I have loved the City of Emeryville ever since I moved to California six years ago. I feel at home here, from sunset walks at the Marina to hanging out in the Public Market on the weekends. I am passionate about community development and honoring the community's past and my education at UC Berkeley gave me a deep understanding of the needs of this area - both in and out of the classroom. I am a creative problem solver and am tenacious about finding a solution that works for everyone. As a marketer at an early stage startup in the East Bay, I have learned a great deal about wearing many hats, rolling up my sleeves and helping where needed - even if it isn't in the job description. I care deeply for the people in my life and in my community. I am ready to take that passion even further and serve on our City Council and bring a compassionate, understanding and hardworking attitude to the position.
