Francisco State University Foundation Board of Directors (Board Member).

Please list organization memberships and positions held:

Relevant Work / Volunteer Experience

Program Associate (Alameda County Waste Management Authority) Communications Assistant (San Francisco City & County)

*Please see statement below.

Why are you interested in serving on this Board, Commission, Committee?*

"Planning Commission Applicants Only" A short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.

Dear Emeryville Council, When I moved to Emeryville from San Francisco in 2013 I quickly came to appreciate the quality of life which makes Emeryville one of the most livable cities in the bay. After some research I found that Emeryville was well on its way to substantially expanding the local housing stock and that there were several large development projects planned across the city. I could not help but appreciate all the work that Emeryville has done to ensure that this growth is done sustainably and equitably for the residents living in our city. This made me proud to claim Emeryville as my new home and, also sparked a deep interest in participating within the City of Emeryville's Planning Commission in a more active capacity. With a professional background working within government agencies in both Alameda and San Francisco Counties at the Alameda County Waste Management Authority and the San Francisco Department of the Environment, I am knowledgeable about the city planning process. Additionally, during my time working within Alameda and San Francisco counties I have helped hundreds of local businesses adhere to policies which help progress the regions zero waste and energy efficiency goals. As a member of the City of Emeryville's Planning Commission it would be my honor to contribute to all the work that the Planning Commission is charged with. I'm specifically interested in ensuring that Emeryville continues being the forward thinking city that it is by focusing on smart growth practices. I believe that by prioritizing transit-oriented, walkable and bicycle-friendly land use practices Emeryville can develop innovative solutions and proactively manage the growth that our city will experience well into the future. That is why I am respectfully asking for your support in allowing me to serve as your next Planning Commissioner.
