ADVISORY BODY EXPERIENCE / INFORMATION

Are you currently serving on other Boards, Commissions, or Committees?* () Yes (X) No
Have you served on a Board, Commission, or Committee before?* (X) Yes () No
City of Emeryville (past/current) advisory boards: Board, Commission, and/or Committee Memberships (past/current) outside of Emeryville : East Bay Community Energy Steering Committee
Please list organization memberships and positions held:
Relevant Work / Volunteer Experience I am a researcher working at the intersections of climate change, public health, air pollution, and energy. I was chapter scientist for the Intergovernmental Panel on Climate Change (IPCC) Fifth Assessment Report chapter on "Human Health." I hold a PhD in Energy and Resources and an MPH (Masters of Public Health), both from UC Berkeley.

Why are you interested in serving on this Board, Commission, Committee?*

I am proud to be a resident of Emeryville, in part because of the city's wonderful parks and recreational activities. As a parent of a young child, I frequently visit Emeryville's public spaces, such as Doyle-Hollis Park and Stanford Park. I would like to serve on this Committee to help Emeryville maintain and hopefully expand its vibrant park and recreation resources. My goal is to represent the needs of Emeryville residents in decision-making processes relevant to parks and recreational opportunities in our city. I believe that parks are incredibly valuable in efforts to create relationships between Emeryville residents, which in turn leads to better quality of life and helps the city build resiliency. Parks are also important pieces of climate change mitigation efforts. As a member of this committee, I would like to further highlight the connection between Emeryville's parks/recreation activities and Emeryville's climate mitigation (and adaptation) efforts.

"Planning Commission Applicants Only" A short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.
