Summary of Legislative Advocacy

On behalf of the City of Emeryville TPA actively monitors, and directly advocates when appropriate, legislation to ensure the needs of the City are met. In addition, we are constantly on the lookout for any surprises that may negatively impact the City. In order to best advance the City's legislative agenda, TPA works closely with Congresswoman Lee, Senator Feinstein, Senator Harris, State Senator Skinner, Assembly Member Thurmond, leadership of both Houses of the Legislature, committee staff and others to convey the City's positions and stay on top of new proposals.

The City is becoming more active on state legislation and taking positions which is a great strategy to help push our legislative agenda. This process includes TPA drafting letters for signature once the City takes a position, then submit the legislative positions to the impacted author, our legislative delegation, committee staff, leadership and others. We also testify at committee hearings on behalf of the City when it's a high priority and draft amendments to legislation that will benefit the City.

In addition, we send comprehensive weekly legislative reports to the Mayor, City Manager, and staff to ensure the City has the most up to date legislative information. For the 2017 legislative session, which

is still in progress, TPA has directly advocated in support of the following legislative topics on the City's behalf;

- **Affordable Housing.** With the dissolution of redevelopment came the decrease in affordable housing funds. In addition, due to the high cost of housing in the Bay Area and state, legislative support for low income residents and working families is needed. The legislation includes:
 - Formally supporting and advocating for Senate Bill 2 (Atkins) Building Homes and Jobs Act. This is the legislation that seeks to create a new \$75-dollar fee for a new revenue source to support affordable housing.
 - Formally supporting and advocating for Assembly Bill 74 (Chiu) Housing. This bill requires HCD to establish the Housing for a Healthy California Program (Program) to fund competitive grants to pay for rental assistance for homeless recipients.
 - Formally supported Assembly Bill 1506 (Bloom) Residential rent control: Costa-Hawkins Rental Housing Act. The original intent of this bill is to make changes to the Costa Hawkins Act, but the legislation will not move forward this year.
 - Our efforts have included: Presenting the City's official letter, in person, and speaking with policy staff from the authors office; asking what we can do to help; informing our legislative delegation on the City's position; briefing committee staff of our position; speaking with leadership staff; and testifying in support when the bill is up in committee.
- **Homelessness.** Cities and counties have the direct, daily perspective and responses to conditions that contribute to homelessness in their areas, however state or federal funding is needed to provide additional tools and support to maintain access to support services, treatment, housing, and jobs. The legislation includes:
 - Formally supporting and advocating for Assembly Bill 932 (Ting) Shelter crisis: homeless shelters and permanent supportive housing. This bill as currently written seeks to create a pilot program in San Francisco to suspend certain legal rules and standards during a declared shelter crisis, in order to expedite the design and construction of more shelters and long-term housing for the homeless. We have requested the bill be amended to include Emeryville.
 - Our efforts have included: Presenting the City's official letter in person and speaking with the policy staff from the authors office and requesting an amendment to include the City. We have had discussions with the Assembly Member and his staff and will be checking in soon on amendments.
- **Transportation funding for existing infrastructure.** With an aging infrastructure and an increase in commuters and residents in the Bay Area, an ongoing source of funds is greatly needed to help enhance road repair. In a city, such as Emeryville that has a disproportionate number of commuters compared to households, new revenue is needed to address much needed road repair. This has been included in the Governor's recent budget proposal and will be a major theme throughout the budget session. The legislation includes:
 - Formally supported and advocated for SB 1 (Beall) Transportation funding. This legislation increases several taxes and fees in new transportation revenues to be used towards local streets and roads, transit, and active transportation facilities.
 - Our efforts have included: Presenting the City's official letter in person and speaking with the policy staff from the authors office; helping build a coalition of cities who support the bill; and testifying in support in the various policy committees.
- **Transportation grants.** Emery Go-Round, a free shuttle service provided by Emeryville businesses, is a tremendous success. As time goes on, the fleet unfortunately wears down yet service requests increase, especially to the West Oakland BART station. Help is needed to

provide a regional service that supports employees, businesses and further encourages the use of public transportation. In addition to the expansion of the fleet, space is needed for a bus yard.

- In addition to the funding opportunities created by SB 1 (Beall), there is another major opportunity for transportation funding that TPA is actively working on. Its Regional Measure 3 also known as the Bay Area Toll increase.
 - The Bay Area Caucus has been focusing their attention on this major transportation proposal.
 - The specific RM3 bill will be a senate bill from Transportation Chair Senator Jim Beall and its SB 595. The Legislature is working with MTC since it impacts all 9 Bay Area counties but the funding break down isn't clear. MTC will start doing stake holder meetings soon.
 - Our efforts have included: We have been very active on this policy topic and constantly updating the City on its status, next steps, and suggesting strategies to move forward and place Emeryville in the best possible position. We have expressed our support to Senator Skinner and her office, Assembly Member Thurmond and his office, and all of the offices of the Bay Area Caucus.
- **Rail crossing traffic improvements.** With the redevelopment of the Oakland Army Base, additional rail traffic will be coming through the City. To adequately prepare for this increase and to ensure the health and safety of Emeryville residents, funding is needed to enhance the traffic mitigation at rail crossings within the City.
- Our efforts have included: Proactive communication to staff at the California Transportation Commission to discuss this funding need, how SB1 funds for rail crossings will be disseminated and how we can secure these funds. This is a new and ongoing effort.
- **Bike share programs.** Emeryville's small size and flat topography make it an ideal city for walking and cycling. With the addition of the award winning 2012 Bicycle and Pedestrian Plan for the City of Emeryville, funding is needed to support the efforts of bicyclists and pedestrians, create an environment that encourages active lifestyles and physical exercise, and connect schools, transit, businesses, and community and employment centers within the City of Emeryville and the region. The City is already a part of the East Bay program approved by MTC and new opportunities will greatly expand these efforts.
- Our efforts have included: Similar to above, TPA has reached out to staff at the California Transportation Commission to discuss this funding need, how SB1 funds for bicycle and pedestrian programs will be disseminated and how we can secure these funds. This new and ongoing effort will also be supported by RM3 funding too.
- **Autonomous Vehicles.** The City of Emeryville prides itself on supporting innovation and technology while partnering with the businesses in these fields. As technology grows and regulations for autonomous vehicles are drafted, the City is a perfect location for pilot programs.
- Our efforts have included: Closely watching the various AV related legislation introduced this year. There have not yet been opportunities for the City of Emeryville however we are ready to strike when they appear.
- **Medicinal Cannabis Statewide Regulations and Proposition 64 Implementation.** As the City moves forward on new, comprehensive, thorough medicinal cannabis regulations this is a new policy topic to closely work on. With the passage of Proposition 64 there will be a legislative effort to ensure the initiative and the already approved statewide framework reflect the needs of local government, law enforcement and the industry.
- Our efforts have included: TPA has also been very active on this policy topic and constantly updating the City on its status and next steps to put Emeryville in the best possible position. We have had numerous meetings with the Governor's

Administration, Governor's Cabinet, the Bureau of Medicinal Cannabis Regulation, legislators and others. TPA drafted a position letter for the City once the Governor's proposal was put forward and continues to follow up on our suggested changes and amendments.

- **Immigration.** With the election of President Trump, there has been many aggressive, harmful actions regarding immigrants and their families. Any expansion of federal deportation efforts will have a significant effect on the Bay Area and California's economy and society. The City of Emeryville has maintained a focus to protect the safety and well-being of all Californians by ensuring that state and local resources are not used to fuel mass deportations, separate families, and ultimately hurt California's economy. The City seeks to support Federal and State actions that overturn or stop the President's current actions. The legislation includes:
 - Formally supporting and advocating for Senate Bill 54 (de Leon) Law enforcement: sharing data. This bill limits state and local law enforcement agencies involvement in immigration enforcement and ensures that eligible individuals are able to seek services from and engage with state agencies without regard to their immigration status.
 - Our efforts have included: Presenting the City's official letter in person and speaking with the policy staff from the authors office; helping build a coalition of cities who supported the bill; testifying in support in the various policy committees; and sending the City up to the minute updates on status.
 - In addition, our federal team has been very active on the City's behalf regarding the President's efforts on immigration and his attempted travel bans. TPA has sent the City ongoing, thorough, and timely updates explaining what is being proposed, its impact, the next steps, and likelihood.
 - **Miscellaneous topics.** Throughout the course of the legislative year, the City may take positions on legislation outside of the adopted legislative agenda. Once the City does, TPA then moves forward to fulfill the City's position and objectives. The bills this year include:
 - Formally opposing and advocating against Senate Bill 649 (Hueso) Wireless telecommunications facilities which seeks to establish a nondiscretionary permitting process for small cell wireless facilities and limits the fees that local governments may charge;
 - Formally supporting and advocating for Senate Bill 562 (Lara) The Healthy California Act which seeks to provide comprehensive universal single-payer health care coverage system for all California residents; and
 - Formally supporting and advocating for Senate Bill 687 (Skinner) Health facilities: emergency centers: Attorney General which seeks to require any nonprofit public benefit corporation provide written notice to and obtain the written consent of the Attorney General prior to agreeing to sell, transfer, lease, exchange, option, convey, or otherwise dispose of the assets resulting from the reduction or elimination of emergency medical services provided at a licensed emergency center after the Attorney General gives a specified consent or conditional consent.
- In addition, we have also kept the City up to date on federal topics such as:
- Fiscal Year 2017-2018 Budget proposals and Appropriations;
 - Affordable Health Care Act / American Health Care updates;
 - EPA Administrator Pruitt comments on city-related program funding;
 - Sanctuary cities and travel ban updates;
 - Presidential Executive Orders; and
 - President Trump's address to Congress.

Monthly Grant meetings

City staff conducts monthly Interdepartmental Grant Collaboration meetings. An important service that TPA provides is monitoring and alerting the City of pending grant opportunities. TPA is committed to alerting the City of pending grant funding opportunities and is available to discuss the opportunity relevance and our suggestions on key traits or initiatives that would make the City's application competitive. TPA also works to ensure feedback and debriefings for applications that are not funded so that we can strengthen our application and apply again. TPA is an active participant as we assist with the review of upcoming funding opportunities, discuss which projects are the most applicable, assign responsibilities, and develop and execute application completion strategies

Propose Scope of Work for 2017-2018 Fiscal Year
