WHEREAS, increasing affordable housing will allow people to live in a safe, decent, affordable home and still have enough money for groceries and other basic necessities; and

WHEREAS, no funds will be taken by the State of California, and all expenditures will be subject to oversight by an independent committee composed of citizens appointed by the City Council; and

WHEREAS, on February 20, 2018, this Council adopted, by a two-thirds vote of all the members of this Council, a Resolution entitled "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF EMERYVILLE DETERMINING THAT THE PUBLIC INTEREST AND NECESSITY DEMAND THE DEVELOPMENT OF AFFORDABLE HOUSING PROJECTS AND THE FINANCING OF PROJECTS RELATING THERETO THROUGH THE ISSUANCE OF GENERAL OBLIGATION BONDS;" and

WHEREAS, the City is authorized to issue general obligation bonds to finance municipal improvements pursuant to the provisions of Article 1, commencing with section 43600, of Chapter 4 of Division 4 of Title 4 of the California Government Code (the "Act"); and

TAX RATE STATEMENT

An election will be held in the City of Emeryville (the "City") on June 5, 2018, to authorize the sale of up to \$50,000,000 in bonds of the City for the specific projects listed in the resolution of the City Council of the City authorizing the submission of a proposition therefor to the citizens of the City. If the bonds are authorized, the City expects to sell the bonds in one or more series. Principal and interest on the bonds will be payable from the proceeds of tax levies made upon the taxable property in the City. The following information is provided in compliance with sections 9400-9404 of the California Elections Code.

1. The best estimate from official sources of the average annual tax rate that would be required to be levied to fund that bond issue over the entire duration of the bond debt service, based on assessed valuations available at the time of the election or a projection based on experience within the same jurisdiction or other demonstrable factors is 4.912 cents per \$100 of assessed valuation of all property to be taxed. The best estimate of the final fiscal year in which the tax is anticipated to be collected is 2046-47.

2. The best estimate from official sources of the highest tax rate that would be required to be levied to fund that bond issue, and an estimate of the year in which that rate will apply, based on assessed valuations available at the time of the election or a projection based on experience within the same jurisdiction or other demonstrable factors is 6.335 cents per \$100 of assessed valuation of all property to be taxed. The best estimate of the year in which the highest tax rate will apply is anticipated to be 2019-20.

3. The best estimate from official sources of the total debt service, including the principal and interest, that would be required to be repaid if all the bonds are issued and sold is \$92,389,550.

Voters should note that such estimated tax rates are specific to the repayment of bonds issued under this authorization and are and will be in addition to tax rates levied in connection with other bond authorizations approved or to be approved by the City or any other overlapping public agency.

Voters should note that estimated tax rate is based on the ASSESSED VALUE of taxable property on Alameda County's official tax rolls, not on the property's market value. Property owners should consult their own property tax bills to determine their property's assessed value and any applicable tax exemptions.

Attention of all voters is directed to the fact that the foregoing information is based upon the City's projections and estimates only, which are not binding upon the City. The actual tax rates and the years in which they will apply may vary from those presently estimated, due to variations from these estimates in the timing of bond sales, the amount

of bonds sold and market interest rates at the time of each sale, and actual assessed valuations over the term of repayment of the bonds. The dates of sale and the amount of bonds sold at any given time will be determined by the City based on need for construction funds and other factors. The actual interest rates at which the bonds will be sold will depend on the bond market at the time of each sale. Actual future assessed valuation will depend upon the amount and value of taxable property within the City as determined by the Alameda County Assessor in the annual assessment and the equalization process.
