

AGREEMENT FOR A CONCEPTUAL PROPOSAL FOR A WORK OF ART
At the Emeryville Marina
By and between the
City of Emeryville and Matthew Geller

This Agreement for a Conceptual Design for a work of Art (the "Artwork") for the Emeryville Marina, on the City's shoreline, is effective and entered into this [REDACTED] by and between the City of Emeryville ("City") and Matthew Geller ("Artist").

1. PROJECT BACKGROUND

The Emeryville Marina is located at the center of the city's shoreline. The site is directly across from the Golden Gate and prone to heavy, reoccurring winds such that materials appropriate for the setting must be considered to reduce wind resistance and damage.

As an often overlooked gateway into the City, the Marina could host an iconic piece of public art that both welcomes visitors entering by boat, and deepens the pride of the locals. Two harbors host 840 slips. This location could invite a large-scale and playful piece of art. The project will have to be approved by the Bay Conservation and Development Commission (BCDC), as the Marina in its entirety falls within BCDC's jurisdiction. Preservation of existing views will be a significant consideration and low-lying works may be a priority.

2. PROJECT CONTEXT

The Emeryville Marina is bordered to the north and south by the Eastshore State Park, which extends 8.5 miles along the East Bay shoreline from the Bay Bridge to Richmond. The park includes 1,854 acres of uplands and tidelands along the waterfronts of Oakland, Emeryville, Berkeley, Albany, and Richmond. Eastshore State Park parallels the most heavily traveled corridor in the East Bay (on I-80), making it a highly visible, highly accessible area of parkland. The Emeryville Marina is a destination along the San Francisco Bay Trail, a recreational corridor that, when completed, will encircle San Francisco and San Pablo Bays with a continuous 500-mile network of trails. The Bay Trail provides easily accessible recreation for outdoor enthusiasts, including hikers, joggers, bicyclists and skaters. It also offers a setting for wildlife viewing and environmental education. Over the past decades, the Bay Trail and other efforts such as Save the Bay have been dedicated to increasing public awareness, respect, and appreciation for the Bay. The San Francisco Bay Trail will eventually connect the shoreline of all nine Bay Area counties, link 47 cities as well as cross the major toll bridges in the region. The Emeryville marina is a "spur" trail from the bay trail offering adjacent recreation facilities.

3. PROJECT GOALS

Elements of the Emeryville Marina public art project shall include as many as possible of the following:

- A. Create an iconic image for Emeryville unique to the setting and of a scale and quality to be a memorable image, evocative of Emeryville.
- B. Enhance public awareness of and respect for the shoreline, including its diverse uses and users, natural habitat and biodiversity.
- C. Craft a landmark that welcomes visitors by boat and trail and deepens the pride in place of local residents.
- D. Create kinetic or engage-able/climb-able pieces for residents and visitors while highlighting the site, the environment and the unique vista points.
- E. Utilize innovative and visionary methods to create installation(s) with durable materials evocative of the spirit of prior temporary art works to honor historic temporary art installations at the nearby mudflats of the Emeryville Crescent. For more examples of such prior temporary installations please see:
https://www.instagram.com/emeryville_mudflats/ or
<http://www.spacesarchives.org/explore/collection/environment/emeryville-mud-flats-aka-driftwood-sculptures--tidal-flats/>
- F. Integrate art functionally with the public spaces, creating delightful spaces among the public open spaces of the Marina Park.
- G. Create a memorable artwork to increase the public enjoyment of this beautiful site, and its relationship to both the natural environment and its urban setting.

4. COMMUNITY PARTICIPATION OPPORTUNITY

Emery Unified has a robust "Artist in the Schools" program and the Emeryville Art in Public Places Program is interested in incorporating school children and other members of the community in the design and development of artist's works or creating teaching opportunities for students and/or community members with working artists. For artists proposing the inclusion of community participants, including Emery Unified School children a stipend of \$1,500 is available, independent of the call's budget to support the effort. Participation can be in the design, fabrication or installation of the proposed art work(s) or an educational opportunity for an apprentice or multiple students in your lab space or at the project site. An additional optional narrative of the proposal for community participation, should it be of interest to the Artist, should be described in submittal of the Final Design Proposal.

ATTACHMENT A: EMERYVILLE MARINA PARK LOCATIONS

Please see the following Priority Location Map with sites and project area delineated. The public areas of Marina Park on the Northwest corner of the Marina have been prioritized for installation of the public art commissioned in the RFQ as outlined in this Location Map. Artists submitting qualifications should consider their ability to work in the conditions here.

Constraints include:

- Significant wind,
- Limited power access,
- Impacted dirt as the surface treatment,
- Anticipated sea level rise,
- Bay Conservation and Development Commission regulatory review with consideration of both view impacts and prohibitions against installation in the water
- Competing site uses,
- Presence of children and others who may expect unrestricted access to open spaces, and
- Expectations of undisrupted views of the region's iconic bridges, both the Golden Gate and Bay Bridges. Within Marina Park three sites have been identified as minimizing conflict with users and views while maximizing visibility. Other sites within Marina Park (as outlined in Location map) may be considered, as long as the main open spaces and view corridors within, through and from the Park are preserved.

Site 1: North-Western Point

As seen from the East of the point.

Site 2: Mound to the East of the Family Meadow

Site 3: Berm between the Bay and the parking lot along outer trail

REGULATORY AGENCY REVIEWS AND SITE STAKEHOLDERS

Due to its location along the waterfront, there are numerous public agencies with jurisdiction over, or interest in, various aspects of the Marina site. These agencies, and their respective missions, include:

San Francisco Bay Conservation and Development Commission (BCDC)

Along the San Francisco shoreline, BCDC's authority relates primarily to public access, defined as "physical public access to and along the shoreline of the Bay and visual public access (views) to the Bay from other public spaces." When developing proposals for artwork at the Marina, artists must not obstruct physical access to the Bay, submerge any work in the Bay, nor impede the view of the Bay from the adjacent roadways or paths. Artists will be required to submit an image of the proposed artwork that illustrates the relationship of the artwork from the nearest roadway to the Bay as part of the finalist review process. Information about BCDC and its design guidelines may be found at:

http://www.bcdc.ca.gov/planning/reports/ShorelineSpacesPublicAccessDesignGuidelinesForSFBay_Apr2005.pdf

The Audubon Society

The Audubon Society's Mission is to conserve and restore natural ecosystems, focusing on birds, other wildlife, and their habitats for the benefit of humanity and the earth's biological diversity. Impacts from installations on birds' flights, nesting and other behavior may be of concern to the Society's regional membership.

California Department of Fish and Game

The Department of Fish and Game maintains native fish, wildlife, plant species and natural communities for their intrinsic and ecological value and their benefits to people. This includes habitat protection and maintenance in a sufficient amount and quality to ensure the survival of all species and natural communities. The Department is also responsible for the diversified use of fish and wildlife including recreational, commercial, scientific and educational uses.

East Bay Regional Parks District/California Parks and Recreation Department

The East Bay Regional Parks District (EBRPD) manages lands owned by the California Parks Department to the south and north of the City owned land at the Marina. The EBRPD's mission is to acquire preserve, protect, and operate regional parklands in perpetuity for public use, while conserving these lands for the natural resource values they contain. The goal of the District resource enhancement projects is to conserve and enhance important resource values such as vegetation, wildlife and water to ensure that natural parkland ecosystems are maintained in a healthy and productive condition. The diverse assortment of birds, mammals, reptiles and invertebrates that dwell in the Regional Parks is an integral part of the ecology of the San Francisco Bay Area and an aesthetic natural feature of the parks that visitors greatly enjoy. While the scope of this RFQ is solely within City lands, these park lands adjacent to site prioritized for natural restoration need to be considered in site context. EBRPD's park space south of the

marina and restored marshlands previously used by artists for temporary installations in the mudflats prior to restoration.

9.4 Effect of Interim Payments

Approval of the work to permit an Interim Payment is solely for the benefit of the Artist. 27. MISCELLANEOUS

27.1 Survival of Indemnities and Other Provisions
