Why are you interested in serving on this Board, Commission or Committee?

I'm eager to be more involved in my community, to learn and participate more consistently in it and to use my skills and expertise proactively for the betterment of our residents.

PLANNING COMMISSION APPLICANTS ONLY

Please provide a short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.

As a member of this community I feel that it is essential to keep a balance between big business presence and the community that lives here. Not too long ago, Emeryville seemed more business centric but now with new residential buildings it is a much more diverse city comprised both of local residents and people that come to work in the city. In this respect, it would be healthy for the city to keep a strong vision of inclusiveness. For example it would be great to see not only improving services to working people coming to our area but to have more facilities and visibility of children, teenagers and older people like in other prosperous cities. In addition, Emeryville is obviously growing in many respects and this is reflected in traffic congestion, considering that large buildings come with parking structures and there is so much the city can expand. It's important that a constant evaluation of growth is observed closely and proper measures are implemented. The city of Emeryville has been undoubtedly receptive to the above issues but it's also important to evaluate that as cost of living increases and jobs are more demanding, people with less resources might be pushed away. In conclusion, I feel that it is important for our small city to continue promoting and facilitating economic diversity, community density and cultural balance.
