Why are you interested in serving on this Board, Commission or Committee?

I am passionate about actively supporting the safety and quality of life in Emeryville. I know from research that walkability, bike-friendliness, and connectedness of a community play a very important part in the health, happiness, thriving, and overall well being of its residents. (This is even reflected in community property values.) Emeryville's quality of life is good and it can continue to increase. I want work to ensure that this quality increases, along with bike and pedestrian safety, as the city furthers grows and develops. I am an avid pedestrian and have a special focus on features that make our city inviting and safe for walkers, and allow walking (with transit) to be a viable method of transportation for residents.

PLANNING COMMISSION APPLICANTS ONLY

Please provide a short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.
