I have more than 30 years of experience working with local government, the US Government, the United Nations and private non-profit organizations to plan, implement, monitor and evaluate, programs in the public interest. My strengths include the ability to develop, edit or amend policies that address real community issues and are written unambiguously in plain, clear and understandable language. I have also developed a flare for being able to assess the various ramifications of public policy decisions keeping in mind the various and often competing agendas, constituencies and cultural concerns.

Why are you interested in serving on this Board, Commission or Committee?

I believe that it would be difficult to argue that there is a more pressing community issue than the housing problems throughout the Bay Area. The need for safe, clean, affordable housing promises to be with us for years to come but long term solutions always start in the present. As well as sharing the housing problems faced by other cities, Emeryville needs to look at ways to increase family housing as much as possible. I feel that my extensive background in policy planning and development as well as my thoughtful approach to dealing with problems would be a great asset to this most urgent issue and the work of this committee.

PLANNING COMMISSION APPLICANTS ONLY

Please provide a short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.
