Why are you interested in serving on this Board, Commission or Committee?

The city of Emeryville is a fast growing place where I believe my knowledge, expertise and life experience can be of great service to help the city's residents achieve and maintain a good quality of life.

PLANNING COMMISSION APPLICANTS ONLY

Please provide a short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.

When my partner and I relocated from the East Coast to California, we considered many other places to live in the Bay Area. We decided on Emeryville after seeing many other locations because we liked the small community feel coupled with the cleanliness and the quietness of the area, also the proximity to San Francisco was important. We researched all the neighborhoods on housing costs, employment availability, crime stats and natural disaster data. We decided on Emeryville because in most cases those numbers were low in comparison. Emeryville is becoming a very popular destination for many to call home because of these very reasons. Growth is rapidly increasing in terms of industry and residential accommodations are on the rise to match the demand for people wanting to live here. So it's inevitable that there will be an increase in foot and vehicular traffic given the proximity to the Bay Bridge and San Francisco. So to combat the increase in the flow of traffic maybe the timing on the traffic lights can be looked at. There may be a need for an increase in staff for EPD and the Fire Department. As it appears now all new development in the area dedicates 11 percent of the project to affordable housing which is good, there also appears to be diversity in hiring practices in the local businesses. This is all very beneficial to a healthy balanced community where everyone feels included and valued, also a member of the team.
