Proposal Details

* Group/Region/Distribution Center G290
* Project/Program Title Emeryville Law Enforcement Partnerships/Training
* Project/Program Description The Emeryville Police Department is excited to partner with Emeryville Target, to increase the safety in our community, to provide outreach, and to provide a valuable resource to our community. We know that police officers

experience a great deal of mental trauma throughout their careers and ensuring resiliency in officers is essential for the health and wellbeing of our officers.

The Emeryville Police Department has enjoyed a healthy relationship with the Emeryville Target. We encourage our officers to frequent Emeryville Target and to work closely with the Loss Prevention officers. A goal in this proposal is to provide resiliency training to several members of our staff. We are confident the resiliency training will increase the wellness of our staff and which will support providing excellent service to our community.

Officer resiliency has been scientifically shown to improve wellness, improve one's ability to manage stress, and to increase the level of professional service. Parts of the training include the development of subject matter expertise so those who attend can train other officers in the basics of the resiliency model. This gives the Emeryville Police Department the advantage of training more officers with a smaller upfront investment. It will also help drive the focus on officer wellness and healthy coping practices.

Officer resiliency training has quickly grown and is becoming more of an industry standard. The scientific research in this field has shown that resiliency training for police officers improves the negative impacts of trauma and improves the delivery of service by the officers. The Emeryville Police Department staff are highly invested in the safety and quality of life for those who live, work and play in Emeryville. The Emeryville Police department is optimistic that the Target Corporation will see the value in providing us this resource, so we can improve the level of professional service we deliver to our great community.

* Corporate Benefits? No

Volunteer Opportunities? Yes

Describe Volunteer Opportunities If funded, this partnership grant opportunity be able to provide some possibilities for Target Employees to volunteer. We can foresee the possibility of Target employees volunteering their time to participate in community trust building and resiliency exercises with the Emeryville Police Department officers. The police staff who receive this training may have an opportunity to facilitate and/or participate in resiliency workshops with the community in which Target employees could participate in on a volunteer basis. This would benefit both the community as well as the Emeryville Target staff by providing community bridge building and inclusion focused workshops. It would make sense that events held at the Emeryville Target would provide the perfect opportunity for the Emeryville Target staff to volunteer with these type of outreach events.

Demographics

* Estimated Number of People Served 3000

* Ethnicity 40% Black or African American
40% Hispanic or Latino
10% White or Caucasian
10% More than one Race/Ethnicity

Economically Disadvantaged % 80

Economically Disadvantaged Measurement While it would be too invasive for our organization to track the economic status of those we serve, it has been our experience that a majority of those we served in our community will receive the benefits of officer resiliency training. Our officer outreach generally serves those who face economical challenges. Those we serve with mental challenges are projected to receive the greatest benefit to officer resiliency training.
