Summary: The Planning and Zoning Law requires the appropriate council of governments, or, for cities and counties without a council of governments, the Department of Housing and Community Development, to adopt a final regional housing need allocation plan that allocates a share of the regional housing need to each city, county, or city and county and is consistent with specified objectives, including that the plan increase the housing supply and the mix of housing types, tenure, and affordability in all cities and counties within the region in an equitable manner. Current law defines the term "household income levels" for purposes of these provisions. This bill would revise the objectives required to be addressed in the regional housing needs allocation plan and additionally require the plan to include an objective to increase access to areas of high opportunity for lower-income residents, while avoiding displacement and affirmatively furthering fair housing.
