Installation method:

Maintenance:

- Regular cleaning can be done with glass cleaner and distilled water and a soft cloth.
- Graffiti, or other tarnished spots can be cleaned with Acetone.
- Small or light scratches can be buffed out and polished by hand.
- If there are deep scratches that cannot be buffed out, individual panels can be easily replaced.
- To this date, the artist has many pieces made from this material installed in public places around the world, and no significant vandalism or damage has occurred.
