Funding member of the High Line park in New York City

**Why are you interested in serving on this Board, Commission, Committee?\***

To continue the work I've been doing on the commission for the last three year, and the community work I've been doing for the last 10+ years.

**"Planning Commission Applicants Only" A short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.**

I have an idea I've been waiting to discuss with city council regarding traffic, especially SOV's coming into Emeryville and how cars parking in Emeryville and generate apx. \$10 Million in direct city revenue. I've been an advocate of transit and land use issues for many years. I believe good land use coupled with great transportation is how we will successfully use density to create more affordable housing, and the livable, walkable city we all want.
