None

Please list all organization memberships and positions held.

Lincoln Institute of Land Policy, researcher NYC Transit, capital planning analyst Lend Lease/Morgan Stanley, real estate manager Presidio Trust, real estate manager Wareham Property, real estate manager

Please list any relevant work and volunteer experience.

In my 25 years of land use work, I have worked on housing, offices, malls and parks. At all of them, I have strived to improve connectivity to transit and to encourage walking. At the Presidio, I assisted with rolling out their first paid parking program and assisted tenants in creating and implementing TDM Plans. Since working with Wareham, I have helped to plan and construct a regional transit facility, worked with an ad hoc committee in locating a bike share pod near the train station, installed EV chargers on our campus, added bike repair stations, and launched a twice monthly mobile bike repair facility. I have attended meetings of the BPAC, Planning Commission, and City Council, and follow the agendas of all, so am familiar with the cities goals, policies, and processes.

Why are you interested in serving on this Board, Commission or Committee?

I have had a lifelong passion for building smarter, more sustainable cities, personally and professionally. I admire all that Emeryville has done to create a sense of place on its own, and to connect it to the region. I would like to be part of this innovation by advising the City Council on its Bike and Pedestrian Plan with the BPAC. Also, approximately 5,000 people--locals and commuters--work at my companies' Emeryville campus, giving me an inside view into what people who work here love, and what they would like to improve. I am also a worker who chooses to commute to Emeryville, with an interest in improving non-car-based connections within the community and around the region.

PLANNING COMMISSION APPLICANTS ONLY

Please provide a short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.
