Other Interests:

I have been an amateur historian since I was a child. This interest has followed me all my life and helps connect myself with my community. I have been studying the Emeryville Mudflat Sculptures and it has enriched my life greatly, personally and professionally. I was a touring / working musician for most of my 20s. I played bass in a band and we played many shows across the country. Other than that, my whole life has been dedicated to art and sculpture.

ADVISORY BODY EXPERIENCE / INFORMATION

Please list any past and current board, commission or committee memberships outside of Emeryville.

Past - Emeryville Historical Society

Please list all organization memberships and positions held.

Vice President

Please list any relevant work and volunteer experience.

I am Working Artist as well as an art professional in the museum industry. I have over 20 years as a working artist/ sculptor and over 10 as a working professional at museums, galleries, and private collections. I work every day and have great knowledge of the logistical aspects of art and exhibiting art. Since having a disabled son, in recent years I have been dedicated to being involved in the disabled community of the east bay. I have volunteered at Creative Growth in Oakland and have taught at NIAD Center in Richmond, both are art studios that serve amazing disabled artists. I care deeply about all aspects of accessibility in our community, especially with art and public art.

Why are you interested in serving on this Board, Commission or Committee?

I have worked on public art projects as an artist, installer, and a logistical coordinator. I have talked to Sharon Wilchar and Melody Kozma-Kennedy about the great work they do and I would love the opportunity to contribute. I also would love the opportunity to give back to my community of Emeryville.

PLANNING COMMISSION APPLICANTS ONLY

Please provide a short (300 words or less) statement discussing your ideas and attitudes about planning in Emeryville. Please consider issues such as traffic, industrial and commercial development density, affordable housing, maintaining community diversity and jobs/housing balance.
