Emeryville, CA 94608

RE: Noise Waiver for Construction Hours

Mr. Bryant,

We are requesting a Noise Waiver for Construction Hours. Below you will find the information required for the waiver.

1. Hours and days of work requested:

Saturdays and Sundays, 8am – 5pm. Start and end dates depends on when the building permit is approved. Duration 12 weeks and 30 workers.

2. Type of work to be conducted:

Framing of corridors to receive the fire sprinklers. Once the corridors are framed and fire sprinkler piping and heads installed, there will be no need for weekend work.

3. Type of equipment to be used:

Skill saws, hammers, nail guns.

4. Location where work will take place (include site plan):

3800 San Pablo Ave. Emeryville, CA 94608

5. Why the waiver is needed:

The waiver is needed for Fire Protection. The property has burned down twice in the past while in construction and we want to avoid a third fire. This is a Residential Modular Construction and the modular apartment units have been built offsite at the factory and will arrive onsite with completed rough-in for fire sprinklers. In order to connect the residential units with the site-built fire sprinkler system, we will need to build the interior corridors to properly support the sprinkler supply piping. Allowing the opportunity for weekend work will allow the completion of the fire protection in the most expedient manner.

6. Contact persons, including phone number and email:

Kurtis Vierra – Project Manager
